Bonus characters:

Using your text editor alter the "user.ini" file in the "system" folder. Find the "TotalUnlockedCharacters=" line and change it to read:

TotalUnlockedCharacters=Malcolm;ClanLord;Xan

Speed power-up:

When your adrenaline reaches 100 and it starts to flash, quickly tap forward (**W**) four times for a speed power-up.

Self-heal power-up:

When your adrenaline reaches 100 and it starts to flash, quickly tap back (**S**) four times to get a self-heal power-up.

Invisibility power-up:

When your adrenaline reaches 100 and it starts to flash, quickly tap left strafe (**D**) two times then right strafe (**A**) two times to get invisibility.

Berserk power-up :

When your adrenaline reaches 100 and it starts to flash, quickly tap forward (**W**) two times and back (**S**) two times.

Hidden message:

In the "Display Settings" menu, activate all of the checkboxes and set the detail settings to the highest possible value. Then, set your resolution to at least 1152x864. You will hear the announcer say "Holy shit".

Particle effect demonstration level:

Use the **open particleexamples.ut2** code to play a level that demonstrates the game's particle effects.
